Chairs that work for you

In the modern workplace, there are certain things we just can't take for granted. Efficiency, comfort and productivity are all closely linked to our environment and its design. Without them, potential will be left unfulfilled and creativity will stagnate. But when these are provided, we can work without limits. Featherlite delivers a diverse range of chairs that facilitate productivity, synchronising perfectly with the user and inspiring new possibilities.

Precision design

Even a simple object can work in complex ways. Featherlite offers chairs that have been inspired by the cutting edge of ergonomic engineering.

Perfect support

Seating that provides an interactive experience. Knowing your needs, intuiting your movements.

Inventive aesthetics

Chairs that blend in and chairs that stand out. Featherlite reinvents the icon of the office to compliment and elevate its environment.

Designed for you

Optima Mesh exhibits seating that offers unparalleled levels of comfort and support. The mesh is biomorphic, designed to fit and adapt to every curve and contour of the user's body. Its lightweight and contemporary aesthetic design communicates the chair's inner workings and make it nonintrusive in its environment. Optima mesh is a chair ready to adapt to anyone, anywhere, accommodating the needs of the user on their own terms.

Designed for well-being

Comfort that is sturdy and reliable. Pinnacle uses a unique multi-panel system to ensure every portion of the body is supported. The user's legs, thighs, lower back, upper back and head are all offered their own comfort centre in the shapes and positions that the human body needs. Available in leather and in mesh, Pinnacle's robust frame stands out as a stylish and effective addition to any workspace.

Unique two-piece back design with height adjustment

Adjustable lumbar support

Tilt pressure adjustment

Multi-function lever

Designed to respond

Liberate re-imagines the way a chair should behave, responding to the user's every movement to provide support at any angle. The chair is built with health orientated ergonomics in mind, featuring the unique DynaFlex system that provides intelligent feedback to the user. Featherlite has incorporated this technology into a product of seamless design that blends perfectly into the modern office environment.

The DynaFlex System

This unique system is designed to offer unprecedented flexibility and freedom to the user, putting items on either side within easy reach. It also features a special flex lumbar support that synchronises perfectly with your back in all positions of recline. While in the upright, locked position, DynaFlex provides a comfortable cushioning that stimulates the spine and abdominal muscles to promote a healthy posture and back.

DynaFlex delivers comfort for long hours at the upright 90° position typically suited for computer use. It does so by unconsciously exercising the user's upper body consistently through the day, thereby discreetly and effectively promoting healthy seating and improved work efficiency.

Designed to perform

For the office that cares about aesthetics. Ergon offers exceptional ergonomic support and boasts a beautifully simple, and simply beautiful approach to design. Stylish aluminium back supports compliment its mesh cushioning in a perfect linear narrative. Of course, Ergon doesn't just look good. The adjustable headrest and knee tilt multi-lock mechanism are some of the features that make for an extremely versatile chair that works the way its user wants it to.

Designed for style

Amaze, a chair to tune your productivity to its maximum potential. The design incorporates a self-calibrating recline mechanism that adapts to your weight to offer the optimum resistance without needing manual adjustment. The imported Duraflex nylon mesh adjusts to the contours of your back, making for an outstanding seating experience. With its sharp contours and defined lines, Amaze is sleek, contemporary, and a particularly beautiful piece of design.

TORSO

A duraflex mesh back and deep cushioned seat combine to form a solid piece of design that takes the user's needs in hand. Torso's biggest strength is its versatility. Simple enough to be used at workstations but also boasting the ergonomic power to function as an executive chair, especially when a sleek chrome base is chosen as one of the configuration options.

A comfortably cushioned chair that will happily fit into a work environment. Pulse's stylish lines and supple contours make it versatile and useful to any user. An ergonomic design that suits the back well and provides comfort and flexibility.

PULSE

Click Visitor

Proven quality and durability, superior comfort, and timeless design. Click offers simplicity and support in a busy office environment. Finished with leatherette or fabric, Click has a well cushioned ergonomic back, a smart, professional look and all the features needed to work comfortably.

With its simple, executive aesthetic, Invention is a stylish option for conference and board rooms. A chair of pronounced lines that frame a smooth leatherette back leading down to a chrome base, Invention has multiple ergonomic features hidden within its plush exterior.

ANATOM

Anatom HB

With its mesh back, adjustable head-rest and seat height adjustment options, Anatom can be customised to compliment a user's specific support requirements. A pleasantly curved back provides ergonomic support well suited for a high efficiency task chair.

An ergonomic, sophisticated swivel chair featuring intelligent functions that respond to the user's wishes. The modern, nifty back has been expanded to produce a subtly stylish chair that provides for healthy seating, featuring a single point locking synchro mechanism and adjustable lumbar support.

Astro Visitor

A classic work chair with emphasis on comfort and function, Astro defines the curve as a functional characteristic. Simple, easy to use adjustments encourage dynamic seating. The chair is a brilliant integration of performance with design at exceptional value.

Contact is an icon in the Indian seating industry. Designed by the company's founder nearly two decades ago, the chair has embodied all the salient features of a classic task chair. The firm backrest gives the user a pleasant feeling of security while fitting in well with modern office layouts with its transparent, lightweight styling.

Smart Visitor (Mesh)

Smart Leatherette

Smart Mesh

A simple, comfortable chair, stripped back to the basics to provide for your immediate needs. Hard, rigid arms and a smaller back give the user their required support and also make Smart great for use in smaller spaces. An excellent, comfortable chair for clients and visitors.

Ideal for visitors, group meetings and training exercises. This simple and comfortable chair has the option of a writing desk, so tasks like note taking can be facilitated easily. Forum is easy to store and can be configured with wheels.
